I love this product. I started using the flax seed blend to help me sleep better at night and I'm seeing huge a difference. Better sleep = A happier more focused me. Also give the Animal blend CBD to my dog as she's had 2 surgeries over the last year and I'm seeing great results in her as well.

Great product and a great team, I especially like how they are accepting crypto on their site and creating almost a gold standard between their CBD oil and their cryptocurrency. Website could use some work, but not too bad.
